

EasiPC Contractor Safeguarding Policy

Safer Recruitment and Criminal Record Checks

All EasiPC staff are subject to an Enhanced Disclosure and Barring Service (DBS) check, including a barred list check and staff suitability questionnaire under Disqualification by Association regulations, and will not be working with Children and Young People unless we are satisfied that these checks have been made and there has been no break in service since the last DBS check.

In the event of any information coming to the attention of EasiPC concerning a member of staff's suitability to work with children and young people, this information would be shared with the relevant stakeholders immediately. All of our staff receive regular training in child protection and all school based technicians receive an annual Performance Review.

Any queries about recruitment and Disclosure and Barring Service checks should be directed to Christine Robinson of EasiPC.

The below paragraph is taken from the latest DFE guidance on external contractors working in a school environment.

Contractors: Paragraph 85

85. Schools and colleges should have arrangements in place with contractors to make sure that the contractor, or any employee of the contractor, working at the school or college has been subject to the appropriate level of DBS check, if any such check is required (for example because the contractor is carrying out teaching or providing some type of care for or supervision of children regularly).
