

Going Google with EasiPC gives teachers, staff and pupils the ability to bring the power of the web to education.

Learning for everyone, anywhere.

Improve collaboration, communication and productivity (all for free)...

Google Apps for Education

Google Apps has all the tools that schools need to be productive, including email, calendar, documents and more. It's designed for collaboration and built for the web so everyone can work together using all types of devices. Google Apps is offered to schools free of charge and free of advertising.

google.com/apps/edu

“Going Google is embracing a learner-centered form of teaching that will foster our world's next thinkers, creators, engineers and leaders, because students will work together to answer their own questions for a real audience.”

Classroom

Classroom in Google Apps for Education helps teachers create and collect assignments paperlessly and quickly see who has or hasn't completed the work. Classroom automatically creates Drive folders for each assignment and for each student to help classes stay organized. Teachers can make announcements and comment with students in real time - improving communication inside and outside of class.

“Going Google has been better, faster and cheaper than we could have hoped for, delivering cost and time efficiency's across the school.”

...empower students with a choice of devices suited to their needs...

Chromebooks

Chromebooks are fast, intuitive and easy to manage laptops that connect students and teachers with the power of the web.

google.com/chromebook/education

70% Savings in total cost of ownership between Chromebooks and traditional PCs.

“We needed to transform our technology and give each student a device so they could access the learning resources they needed at any time. We chose Chromebooks because they are easy to manage, cost effective and hard wearing enough to handle day to day use in a school environment. ”

Android tablets

Google offers a range of affordable tablets that deliver powerful educational content to the hands of students and teachers. These tablets come with the array of apps in Google Play for Education and the best of Google apps like Docs, Chrome, Gmail, Earth and more. And with NFC touch deployment simply tap device to device to set up a classroom of tablets in just minutes.

google.com/edu/tablets

...and help them access apps and content with ease.

Google Play for Education

Whether students are working on Chromebooks or Android tablets, teachers have access to a wide variety of educator approved content in Google Play for Education:

Thousands of free and paid apps for Android and Chrome, making Google Play for Education your one stop shop for class content.

Popular apps specifically adapted for schools in the UK.

Sharing the right app is as simple as sharing a Google doc, giving teachers the flexibility to improvise and the power to differentiate.

google.com/edu/play

“The books in Google Play for Education have been an outstanding classroom resource for us. Instead of buying a set of books and being locked into using them for years to come, our teachers enjoy having the freedom to select books that fit the needs of their current students and share them immediately. This differentiated approach is essential as schools adopt the Common Core and work to improve student reading abilities.”

About EasiPC

EasiPC are an education focused support provider with an aim to encourage teaching and learning through the confident use of technology...

Who are we?

EasiPC are an established IT support company providing services to over 100 schools and academies in and around the Northamptonshire area. Our aim is to provide your school with friendly, informative support and advice in order to achieve confident use of technology in the classroom. With a 20 strong team of engineers we make sure best practice is communicated effectively throughout our schools, unlocking a wider support network that is continually improving teaching and learning through the sharing of ideas and understanding of what latest technology best suits.

Onsite Support

At EasiPC, we offer an on-site support package that allows you to use your schools ICT system with confidence while our technicians take care of the ongoing maintenance. Our bespoke service allows customers to enjoy the benefits and expertise of a fully-trained ICT technician without the overheads.

Helpdesk

Our local team of expert engineers here at EasiPC, with a combined experience of 30+ years supporting all aspects of ICT in schools and academies across the county, will be on hand to help deal with all manner of technical and SIMS software support queries via telephone or remote.

Other Services

We offer many other services catering specifically for the education environment including server installation, networking, managed wireless, hardware sales, hardware maintenance, iPad setup, broadband, e-safe filtering, staff training, web design, remote backup and much more.

What schools are saying about us

"Isebrook SEN College have worked with EasiPC for many years. We have been extremely pleased with the service provided; our technicians are reliable, knowledgeable and helpful and they work extremely well with our staff, ensuring that our network operates smoothly. They are very much involved with our on-going strategic development of ICT and computing across the college and help provide us with the expertise which we require in this day and age"

Richard Gargon, Deputy Head, Isebrook SEN College
